Dal 1989 Drop produce articoli da bagno innovativi, unendo alla ricerca tecnologica un design raffinato e moderno. Il successo di Drop, sui mercati di oltre 40 paesi, è frutto di esperienza e capacità nel progettare prodotti all'avanguardia. Attraverso il continuo studio dei materiali, delle tecnologie e dei processi produttivi, il laboratorio Drop crea soluzioni, che trovano compimento nei 5 centri di produzione interni. Dalla progettazione allo stampaggio, dall'assemblaggio al collaudo, in un unico ciclo integrato, Drop realizza con cura tutti i suoi prodotti.

Since 1989 Drop has produced innovative bathroom products, combining technological research with modern and sophisticated design. Drop supplies products in over 40 countries and its success is directly related to its innovative design and advanced technology. Thanks to the continuous study of materials, technologies and productive processes, Drop's laboratory creates solutions which are then completed in the 5 Internal Production Centres. Starting from the project to the moulding, from assembling to final testing. Drop makes all its products according to top quality standards.

Depuis 1989 Drop fabrique des produits innovateurs pour la salle de bains, en combinant la recherche technologique avec un design moderne et sophistiqué. Drop est sur le marché de plus de 40 pays et son succès est directement lié à son expérience et à la conception de produits d'avant-garde. Grâce à l'étude des matériaux, des technologies et des processus productifs, le laboratoire Drop crée les solutions qui sont alors accomplies aux 5 Centres de Production Internes. Du projet au moule, de l'assemblage à l'essai final, en un seul cycle intégré. Drop fabrique tous ses produits avec grand soin.

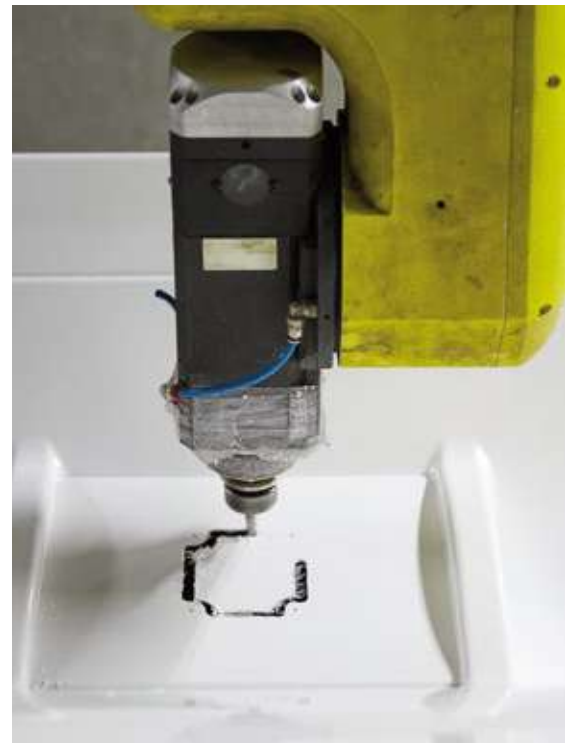

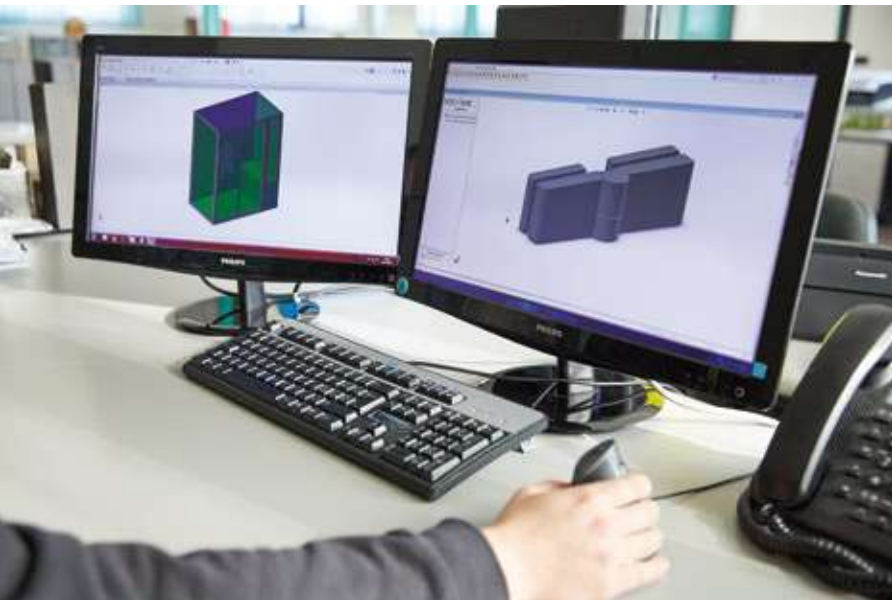

Seit 1989 produziert Drop innovative Artikel für Bad, die fortschrittliche Technologien und raffiniertes Design in sich vereinen. Der Erfolg von Drop in über 40 Ländern ist das Ergebnis langjähriger Erfahrung sowie der Fähigkeit, Avantgarde Produkte zu entwerfen. Anhand kontinuierlicher Materialstudien, Untersuchungen von Techniken und Herstellungsverfahren werden im Labor von Drop Lösungen geschaffen, die in den fünf internen Produktionszentren umgesetzt werden. Samtliche Produkte von Drop werden vom Entwurf bis zum Pressvorgang, vom Zusammenbau bis zum abschließenden Test sorgfältig in einem einzigen integrierten Produktionszyklus geschaffen.

rain CT1

I soffioni doccia RAIN CT1 con cromoterapia e telecomando consentono di trasformare l'esperienza della doccia in un momento di benessere multisensoriale.

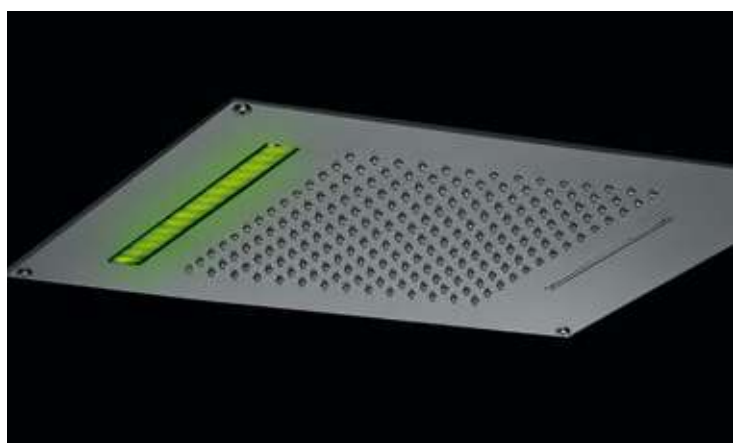

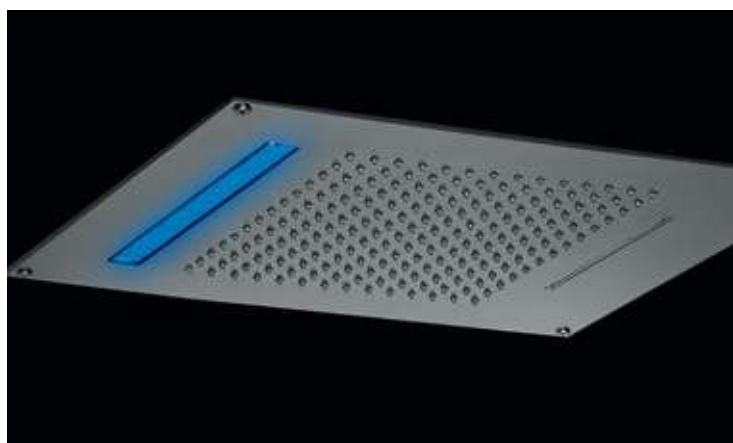

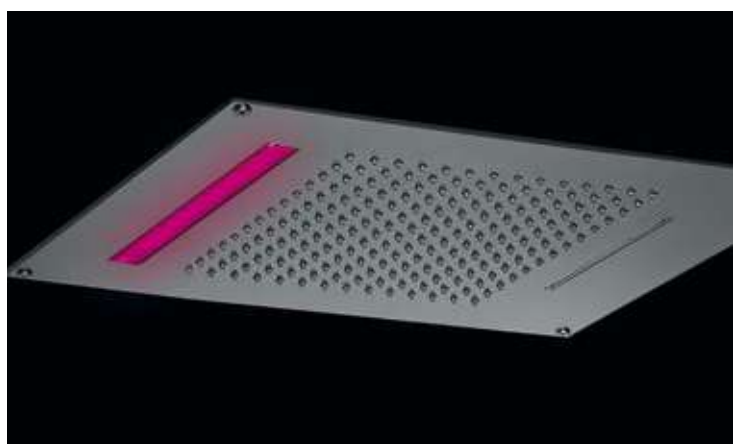

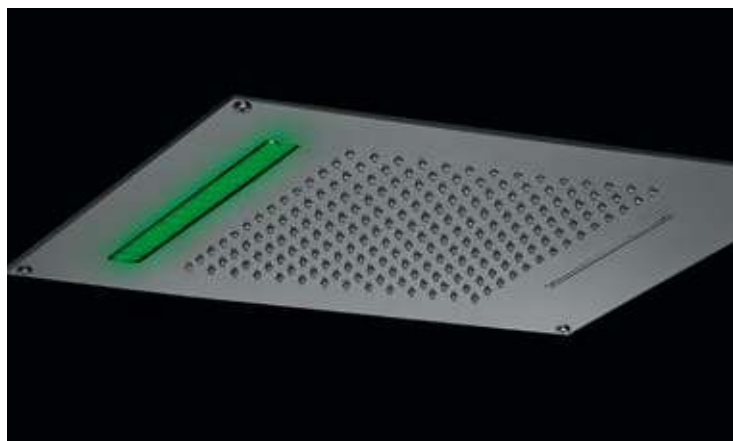

Questi soffioni, realizzati in acciaio inox per garantire durabilità e design moderno sono disponibili in acciaio lucido, satinato e nero opaco. Sono inoltre dotati di luci LED integrate che emettono diversi colori, sfruttando i benefici della cromoterapia.

Les pommes de douche RAIN CT1 avec chromothérapie et télécommande permettent de transformer l'expérience de la douche en un moment de bien-être multisensoriel.

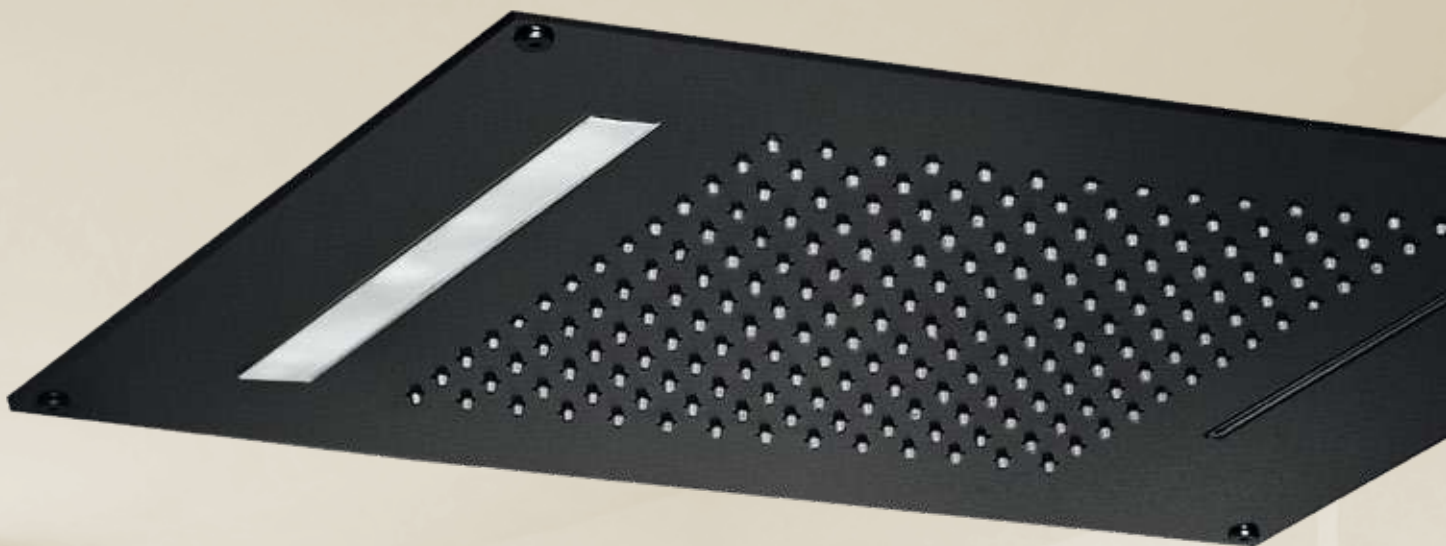

Ces pommes de douche, fabriquées en acier inoxydable pour garantir durabilité et design moderne, sont disponibles en acier brillant, satiné et noir mat. Elles sont également équipées de lumières LED intégrées qui diffusent différentes couleurs, tirant parti des bienfaits de la chromothérapie.

RAIN CT1 shower heads with chromotherapy and remote control turn the shower experience into a moment of multisensory well-being. These shower heads, made of stainless steel to ensure durability and modern design, are available in polished, satin, and matte black finishes.

They are also equipped with integrated LED lights that emit various colors, harnessing the benefits of chromotherapy.
